

SATELLITE PHONE - Making a Call

1. To make a call, use your satellite phone outdoors with a clear view of the sky and horizon (no obstructions, i.e. buildings, large trees).
2. Rotate and fully extend the antenna, pointing towards the sky.
3. Turn on your phone by pressing and holding .
4. Wait about 30 seconds and check your screen for service bars  and a

Red House  (indicating Home Zone). When you see these two icons on the screen, your phone is registered with the Globalstar Satellite network and you can make a phone call.

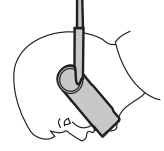

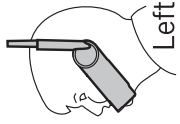

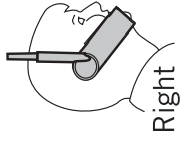

Note: If  is displayed you are Roaming and have to use international (+) dialing.

5. Enter the phone number you want to call. Always dial the country code and the area code for the number you are dialing. Example: 1-866-651-7768.
6. Press .

SATELLITE PHONE - Usage Tips

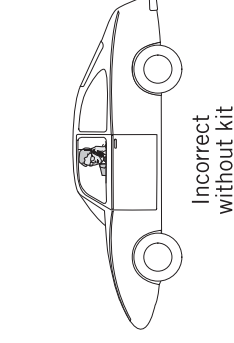

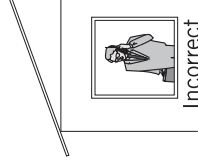

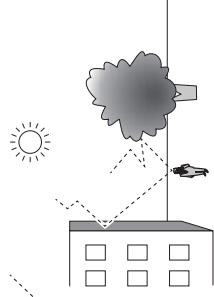

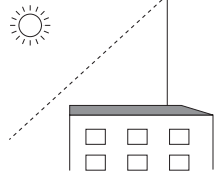

- When talking on the satellite phone, ensure that the antenna is fully extended and pointing towards the sky.

Correct

Incorrect

- The satellite phone does not operate inside a building or in a car, unless using the Installation Kit.
- For best performance, move away from tall obstacles such as buildings or trees.
