CHANGING THE STATIC IP ON A GRANDSTREAM PHONE

Prepared: 7/13/2021

CHANGING THE STATIC IP ON A GRANDSTREAM PHONE

1 In a web browser, navigate to the IP address that is displayed by pressing the UP arrow on the phone's directional pad.

2 Sign into the phone's web interface using the admin login.

Username
Password
Language English

3 Navigate to Network > Basic Settings

STATUS ACCOUNTS SETTINGS NETWORK MAINTENANCE PHONEBOOK
Basic Settings
Advanced Settings
Remote Control
Affinity Settings
Bluetooth Settings
Version 1.0.11.35

4 Under the IPv4 Address section, change the IPv4 Address dropdown to Static and then enter the necessary IP information for the device.

IPv4 Address

IPv4 Address	Static	192	168	0	160
Subnet Mask		255	255	0	0
Gateway		0	0	0	0
DNS Server 1		0	0	0	0
DNS Server 2		0	0	0	0
Preferred DNS Server		0	0	0	0

5 At the bottom of the network page click the Save and Apply button to save the new IP configuration.

Save Save and Apply Reset

6 Once the page has reloaded after saving, click the Reboot option at the top of the page to reboot the device on the new IP.
